Five Protective Factors to Strengthen Your Family

Every family struggles from time to time; those struggles are what allows us to grow closer and stronger as a family. This guide has been created to give everyone in the Williams area access to the services they may need when times get tough.

“Protective Factors are the strengths and resources that families can draw on when life gets difficult. Taking those good characteristics and building on them is a proven way to strengthen the entire family and thus decrease the likelihood of maltreatment.

Each of the protective factors is essential, but most important is what they do together to create strength and stability in families. “Bringing the Protective Factors Framework to Life in Your Work” (www.ctfalliance.com., Web. 15 June 2015).

The five protective factors are:

PR

Parental Resilience (PR)

The ability to learn from difficult life experiences and use them to better yourself and your family in the future.

SC

Social Connections (SC)

Positive relationships that provide emotional, informational and spiritual support. You are not alone!

PCD

Knowledge of Parenting and Child Development (PCD)

An understanding of your child's development and parenting strategies that will support your child's mental, emotional, cognitive, social, and physical development.

TN

Concrete Support in Times of Need (TN)

Access to services that address a family's needs and help minimized the stress caused by challenges we all face.

SE

Social and Emotional Competence of Children (SE)

Helping children develop the ability to communicate, recognize and regulate their emotions. Also, the ability to establish and maintain healthy relationships.

As you look through this guide, please reference the above abbreviations. Each entry will use these to indicate which services can assist with the protective factors.

If you are interested in learning more about the protective factors and how they can influence your family, please visit the National Alliance of Children's Trust & Prevention Funds at <http://www.ctfalliance.org/onlinetraining.htm>.

Arizona Public Service Electricity (APS)

As Arizona's largest and longest-serving electric company, we're proud of our heritage and past performance. But we recognize new technologies and growing customer expectations are leading to rapid changes at our company and in our industry. We generate safe, affordable and reliable electricity for more than 1.1 million retail and residential customers in 11 of Arizona's 15 counties. By 2030 we expect to add 700,000 new customers. We plan to meet those customers' needs through innovation and excellent service.

Child Abuse Hotline

A report of suspected child abuse, neglect, exploitation, or abandonment is a responsible attempt to protect a child. Arizona law requires certain persons who suspect that a child has received non-accidental injury or has been neglected to report their concerns to DCS or local law enforcement (ARS §13-3620.A). YOU may be a child's only advocate at the time you report the possibility of abuse or neglect. Children often tell a person with whom they feel safe about abuse or neglect. If a child tells you of such experiences, act to protect that child by calling the toll-free Arizona Child Abuse Hotline at **1-888-SOS-CHILD (1-888-767-2445)**.
